PROFILE

I am a frontend developer. I have been working in development for 4 years, focusing on frontend for the last 2 years. Frontend is the result of my actions: beautiful, animated and functional websites appear on the clean page of the browser. Excellent skills in React, TypeScript/JavaScript, Redux, Next, MUI, Tailwind, Styled Components, Docker, Git, Caprover. Successfully participated in several startups. I possess great soft skills: teamwork, productivity, high level of responsibility, and result-oriented mindset.
I value honesty, diligence, and respect.
Life motto - everything is possible!

WORK EXPERIENCE

Frontend developer

Little Knits Story (Montenegro)   *2021-2023*
It was several startups, we were creating a blog about knitting, a social network for cosplayers and landing pages.

- I was developing new functionality on the React framework, supporting or refactoring old functionality,
- I was participating in discussions about the new design, assigning tasks, and teamwork.
- I switched from JavaScript to TypeScript, from React to Next.js, from RTK Query to SWR
- I applied the methodology BEM, in another time CSS modules, in another time Styled Components.
- I worked in a team, communicated with a product manager, backend developers and designers.
- I worked using Jira, GitHub Projects, Trello, Slack.

MY PROJECTS

Portfolio (https://prudinskaia.space/)- this site is about who I am, my works, my contacts. Used Next.js App Router, React, TypeScript, RTK Query, i18n, SCSS, Tailwind, CSS Flexbox, CSS Grid, Caprover.
Dogs (http://dogs.dev.littledevstory.site/) - this site is about dogs. Used React, TS, Vite, Tailwind, RTK Query and deployed using CapRover.
Dustbins (https://github.com/BulochkaBU/dustbins). - this site is about sorting trash. Used React, react-dnd, TS, Vite, Tailwind, RTK Query.
Where is Gleb (http://wheregleb.space/) - this app is about how Gleb was driving from Montenegro to Finland. Used React, Vite, YaMaps, RTK Query, Caprover, Nginx.
Prodman (https://bulochkabu.github.io/) it is a landing page. Used HTML, Ajax, Tailwind.
