PROFILE

Frontend is the result of my actions: beautiful, animated and functional websites appear on the clean page of the browser.
I use React, Next.js, TypeScript, RTK Query, SWR, TailWind, MUI, Styled Components, SASS/SCSS, Git, GitHub, Docker.
I deploy my apps using Docker, Nginx, GitHub Pages, CapRover.
I am ready for new discoveries, new opportunities and new challenges!
Life motto - everything is possible!

WORK EXPERIENCE

Fronted developer

Little Knits Story (Montenegro)   2021-2023

It was several startups, we were creating a blog about knitting, another project - a social network for cosplayers, and one of the projects - a landing page.

- I was developing new functionality on the React framework, supporting or refactoring old functionality,
- I was participating in discussions about the new design, assigning tasks, and teamwork.
- I switched from JavaScript to TypeScript, from React to Next.js, from RTK Query to SWR
- I applied the methodology BEM, in another time CSS modules, in another time Styled Components.
- I worked in a team, communicated with a product manager, backend developers and designers.
- I worked using Jira, GitHub Projects, Trello, Slack.

My projects

- **Portfolio (https://prudinskaia.space/)-** this site is about who I am, my works, my contacts. Used Next.js App Router, React, TypeScript, RTK Query, i18n, SCSS, Tailwind, CSS Flexbox, CSS Grid, Caprover.
- **Dogs (http://dogs.dev.littledevstory.site/)** - this site is about dogs. Used React, TS, Vite, Tailwind, RTK Query and deployed using CapRover.
- **Dustbins (https://github.com/BulochkaBU/dustbins).** - this site is about sorting trash. Used React, react-dnd, TS, Vite, Tailwind, RTK Query.
- **Where is Gleb (http://wheregleb.space/)** - this app is about how Gleb was driving from Montenegro to Finland. Used React, Vite, YaMaps, RTK Query, Caprover, Nginx.
- **Prodman (https://bulochkabu.github.io/)** it is a landing page. Used HTML, Ajax, Tailwind.

ANASTASIIA PRUDINSKAIA

FRONTEND DEVELOPER

My name is Anastasiia Prudinskaia. I've been doing frontend development for the last 2 years, and I believe that frontend is the result of my actions: beautiful, animated and functional websites appear on a clean browser page.

I've been involved in several startups: we created a blog about knitting, another project - a social network for cosplayers, and one of the projects - a landing page. I've developed new functionality on the React framework, supported or refactored old functionality, participated in new design discussions, distributed tasks, and worked in a team.

My husband, our dog and I moved to Finland at the end of 2023. Family values are important to me and I am happily married. I believe in a healthy work-life balance. I love traveling and exploring new places. I like swimming and walking our dog. When I at home my hobbies are cross-stitch embroidery, painting by numbers, and weaving beaded jewelry.

Now I'm looking for a place where I can work long term and grow professionally and personally.

I will be very grateful if you consider my CV and give me any feedback.

Best regards, Anastasiia.
