Espoo, Finland

Frontend developer 2 years experience

I like to see the result of my actions: beautiful, animated and functional websites appear on the clean page of the browser.

Highlighted technologies and skills:

- JavaScript, TypeScript, ES6+
- React, Next.js
- Redux, RTK Query, SWR
- Fetch API, axios, GraphQL
- HTML Semantic Elements, Bootstrap, Tailwind, MUI
- CSS, SASS/SCSS, CSS Flexbox, CSS Grid
- BEM, CSS modules
- Docker, Nginx, GitHub Pages, Caprover
- Git, GitHub
- Responsive web design, mobile first, desktop first, Figma
- Jira, GitHub Projects, Trello, Slack

Soft skills:

communication skills, a high degree of responsibility, results orientation, diligent and dedicated

Work experience:

May 2021 – July 2023 (2 years)
Frontend developer - Little Knits Story (http://dev.littleknitsstory.com/ , (https://incosplay.top/)
It was several startups, we were creating a blog about knitting, another project - a social network for cosplayers, and one of the projects - a landing page.

I was developing new functionality on the React framework, supporting or refactoring old functionality, participating in discussions about the new design, assigning tasks, and teamwork.

Achievements

- We rewrote the website about knitting several times from scratch, which gave us the opportunity to try different tools.
- We switched from JavaScript to TypeScript, from React to Next.js, from RTK Query to SWR.
- Once applied the methodology BEM, in another time CSS modules, in another time Styled Components.
- I learned how to work in a team, communicate with a product manager, backend developers and
- designers.
- I learned how to work in Jira, GitHub Projects, Trello, Slack.

Pet projects:

Portfolio - this site is about who I am, my works, my contacts (**https://prudinskaia.space/**)
• Used Next.js App Router, React, TypeScript, RTK Query, i18n, SCSS, Tailwind, CSS Flexbox, CSS Grid, Caprover
Where is Gleb - this app is about how Gleb was driving from Montenegro to Finland **(http://wheregleb.space/**)
• Used React, Vite, YaMaps, RTK Query, Caprover, Nginx
Prodman - it is a landing page (**https://bulochkabu.github.io/**)
• Used HTML, Ajax, Tailwind
Heroes - test panel for adding/removing a hero (**https://github.com/BulochkaBU/hero_admin_panel_template**)
• Used React, Redux, RTK Query, Bootstrap
Marvel - this app is about a list of Marvel heroes, a random hero, detailed information about one of them (**https://github.com/BulochkaBU/marvel**)
• Used React, Hooks, HTML, CSS

High education

I finished Saint-Petersburg State University of Economics in 2016.
Specialist diploma, economist, degree program in accounting, analysis, audit

About me

I believe in maintaining a healthy work-life balance. I am passionate about physical activity, including long bike rides, swimming, and walking my dog. I love traveling and exploring new places. My hobbies are cross stitching, painting by number, beading jewelry.

Life motto - everything is possible!

P.S. I didn't use ChatGPT or any to write this CV :)
